

Laboratory Sheet 1

Revisions of HTML5, CSS

What you need today: Notepad++ (or another editor); Chrome (or another browser); HTML5, CSS.

Where you can get support: lecture notes on webcourses + full references on:

<http://www.w3schools.com/html/default.asp>

<http://www.w3schools.com/css/default.asp>

Tip: when in Chrome or Firefox, press F12 to use “Dev Tools”, such as the Console and Inspect Elements, to debug your code.

1. Create a web page with your short CV. It should include:
 - a. a main page, index.html
 - b. the DIT logo, working as a hyperlink to www.dit.ie
 - c. several paragraphs of text (summary, cover letter)
 - d. nested lists (jobs and responsibilities, projects and technologies)
 - e. links to 3 websites (past schools, employers)
 - f. a table with visible borders (education, years and grades)
 - g. your photo
2. Create two external style sheets: “Creative” and “Professional”. The styles should include a background, different text formatting, etc.
3. Attach the style sheets to the page manually, one at a time, for testing.
